Profile

Experienced PHP developer with a strong focus on Laravel 8 framework and MySQL. With 6 years of hands-on experience in web development, I have successfully delivered high-quality, scalable solutions for diverse clients and industries. Equipped with a diverse and promising skill set. Proficient in an assortment of technologies, including PHP, Perl, Python, Java, C#, HTML, CSS, JavaScript, and MySQL DB. Able to effectively self-manage during independent projects, as well as collaborate in a team setting. Strong communication skills with the ability to grasp new things quickly. Aim to work in a challenging work environment where I can utilize my expertise in resolving problems and advocate my analytical skills toward the growth of the organization.

Employment History

PHP Web developer, Leadagency B.V., Alphen aan den Rijn

October 2023

Working on multiple internal applications that are used to onboard clients with their requirements, creating the campaign, running the campaign on multiple social media channels, generating internal and external reports, and monitoring the statistics per client or campaign. My major responsibilities are:

- Make improvements and build new features to enhance user experience.
- Utilizing APIs for data exchange between systems (also social media channels).
- Reducing technical debts.
- Making sure that campaign numbers are reported correctly to internal and external stakeholders.

PHP/Laravel Web Developer, Foodticket B.V., Huizen

May 2019 — August 2023

Worked for more than 4 years in a hard-working and goal-oriented team as a back-end PHP developer in the Laravel framework. I have worked on multiple projects including the migration of the legacy website from Perl to PHP, the release of a newer version with the latest design and code, the restructuring of code to improve system performance, etc. Some of the roles and responsibilities are listed below.

- Making APIs for seamless integration of different modules of the website
- Code optimization and restructuring
- Data handling and analysis

Teamwork

- Handling of MySQL database queries
- Mentoring & training new team members by sharing knowledge

Hobbies

Traveling, Cooking

Research Intern, CSIR-NISCAIR, Delhi, India

October 2016 — October 2018

Worked as a full-time research intern in the Bibliometric department for 2 years. My main responsibilities include,

- Feeding of data into the .NET framework-based intranet hosted website using SQL database.
- Understanding the system requirements to make it compatible with the data.
- New data incorporation in the existing database, modifying the table attributes, and extraction of data with the help of SQL queries.
